

What is going on in the RedDot Usergroup?

London, November 3rd 2009

Rearview

Development of conferences

- Germany
 - More intense dialogue with representatives of the entire Open Text corporation, not just from Oldenburg
 - Noticeable increase of participants
 - Hotel in MedienHafen Düsseldorf will be a firm location for future conferences, others will follow

Development of conferences

● UK

- Fluctuation within OpenText (RedDot) UK leads to difficult availability of contacts
- German / English Events in Germany have not stood the test
- Two events per year in UK, requested by participants, firmly planned
- Next Date: May 4th 2010

Outlook

RedDot Usergroup e.V. change of name

- Name change of the association was decided during the general meeting on September 21st 2009 into

Open Text Websolutions Usergroup e.V.

- Adjusted CI with the new Logo is on its way.
- All the suggestions for the new logo have entered a contest, the voting took place during the general meeting.

Extended workshop offers

- Existing Workshop locations in Karlsruhe and Viersen
- Exclusive Workshops possible in your establishment
 - The prophet comes to the mountain and you save travel expenses
 - You supply hardware and systems
 - Individual problems can be considered
- Dates and further information soon in your mail!

„Future activities“ - „Your ideas? Your cooperation?“

- Which emphasis on subjects would you like for the next events?
- Are you interested in presenting a workshop?
- Are you an editor and looking forward to report from your “every day work routine”?
- Would you like to do a speaker platform on a “technical” RedDot-subject?
- Would you like to present one of your projects?

Talk to us!
